### Engine Oil Level Check

- 1 Dipstick
- 2 Oil filler hole

Check engine oil level at regular intervals, e.g. after refueling, with the engine at operating temperature and shut off.

The vehicle should be parked on level ground and the oil level must be somewhere between the lower and the upper mark on dipstick (1); do not replenish in excess of the upper mark.

For viscosity and capacity, see "Fuels, Coolants, Lubricants, etc., and last page".
